PROFESSIONAL SUMMARY

Full Stack Developer (MERN stack) with internship experience and three full stack projects built with JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB and Mongoose. Skilled in REST API development, JWT authentication, HTML, CSS & Tailwind CSS, and Git & GitHub workflows. Looking to contribute to Clino Health Innovation's Full Stack Developer role in Bhubaneswar and grow while building reliable, user-friendly products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML, CSS & Tailwind CSS

Frontend: React.js, Next.js, Redux Toolkit, React Router, React Hook Form, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST API Development, RESTful APIs, JWT Authentication, bcrypt, Multer, Middleware

Database: MongoDB & Mongoose (schema design, references, indexes, populate), ImageKit, Appwrite

Tools: Git & GitHub (version control), Vite, Axios, VS Code

PROJECTS

Role-Based Music Library API | Node.js, Express.js, MongoDB, Mongoose, JWT | GitHub

- Built a **REST API** with Express and Mongoose for authentication and a music library, structured into routes, controllers, and middleware.
- Implemented **JWT cookie authentication** with bcrypt password hashing and role-based middleware restricting uploads and album creation to admins.
- Designed referenced **MongoDB schemas** (users, music, albums) with unique constraints and populate queries; handled audio uploads with Multer and ImageKit.

ShopAssist – E-Commerce App | React.js, Redux Toolkit, React Router, Tailwind CSS | GitHub

- Built a responsive storefront using **React and Tailwind CSS** that consumes a REST API (DummyJSON) with loading, error, and empty states, plus search and category filters.
- Managed cart and wishlist state with Redux Toolkit slices, persisted in localStorage.

Job Application Tracker (in progress) | Next.js, TypeScript, MongoDB, Better Auth | GitHub

- Building a full stack app with email/password authentication (Better Auth, MongoDB adapter) and protected routes redirecting signed-out users to sign-in.
- Designed Mongoose schemas for boards, columns, and applications with indexed fields; added a signup hook that creates a default board with five columns per user.

WORK EXPERIENCE

Frontend Developer Intern | CanienTech | Hybrid *Oct 2025 – Apr 2026*

- Built and customized responsive web pages using HTML, CSS, and JavaScript to meet project requirements.
- Implemented interactive UI elements and responsive layouts that improved usability across phones, tablets, and desktops.
- Used Git and GitHub for version control across projects.

EDUCATION

B.Tech, Computer Science & Engineering | Aryan Institute of Engineering and Technology, BPUT *2023 – 2027 (Expected)*
